

Product Update – PCB Elbow Receptacles

Did you know that LEMO offers PCB Elbow Receptacles under all three brands? LEMO, REDEL & Coelver? These are basic popular concepts for DFM (Design for Manufacturability) and intended for printed circuit board. The newest offering is the PCB Elbow receptacles of the REDEL 1P product line as shown below (See the PCB Elbow Receptacle PDF for specs also attached):

EPG B series

EXG B series

PPG REDEL 1P

PXG REDEL 1P

** flip cap available for this piece*

**1.0./2.3 Coax 75 ohm impedance
